## SUMMARY

MERN Full-Stack Developer with 4 years of experience building end-to-end web solutions using **React, Node.js, Express, and MongoDB**. Strong in API design, authentication, and real-time systems, with a focus on performance, scalability, and maintainability.

## SKILLS

- **Programming Skills:** JavaScript, HTML, CSS / SASS
- **Frameworks & Libraries:** React.js, Redux / Redux Toolkit, Context API, Tailwind CSS, MUI, Expo
- **Backend:** Node.js, Express.js, RESTful APIs, WebSocket / Socket.io, JWT Authentication, Firebase
- **Database:** MongoDB, SQL, NoSQL
- **DevOps & Tools:** Git / GitHub, Docker, Kubernetes, CI/CD Pipelines, npm, Postman, Swagger, Vercel, SonarQube
- **Other Expertise:** Performance Optimization, Authentication & Authorization, Scalable Architecture Design

## WORK EXPERIENCE

**Software Engineer** - CoffeeWeb Technologies Pvt Ltd *July 2023 - Present*

CoffeeWeb Technologies develops digital solutions focused on delivering comprehensive data and insights for the global coffee market.

- Optimized website performance through code splitting, lazy loading, and image optimization, improving page load speed and user retention.
- Built a real-time Forex and commodity data visualization module using WebSockets and Lightweight Charts, featuring live price updates and interactive historical trends.
- Enhanced real-time user engagement through Firebase push notifications and WebSocket integration.
- Implemented single-device authentication, ensuring improved account security and controlled session management.
- Developed a Progressive Web App (PWA) with offline functionality and smart caching strategies.
- Designed and maintained RESTful APIs using Node.js and Express.js for efficient frontend–backend communication.

**Frontend Developer** - iLearnplace *May 2022 - Jun 2023*

iLearnplace provides a digital platform for collaborative and practical learning.

- Implemented global API error handling with consistent fallback messaging, improving UX and app stability.
- Resolved complex technical challenges by applying strong problem-solving and debugging skills.
- Utilized SonarQube for code quality analysis, ensuring maintainability and adherence to best coding practices.
- Improved app performance using advanced React techniques like memoization and component optimization.

## PERSONAL PROJECTS

- Chat MERN App –A real-time chat app using WebSocket, MongoDB, Node.js, and Express for instant messaging.
- Q-bit - It provides news in specific categories chosen by the user using React Native.
- Shop Bazar - This is an easy-to-use e-commerce app with features like login and signup, product filtering, a shopping cart, and secure payment integration.
- Share Me - Developed a web application that allows users to upload and share images, with real-time display on the homepage.

## CERTIFICATION

**MERN Stack Web Development -** Masai School *Jun 2021 - Apr 2022*
**AI First Software Engineering -** Airtribe *Oct 2025 - Apr 2026*
